OUR ROLE & STRATEGY

The European Climate Foundation (ECF) was established in The Hague in early 2008 as a ‘foundation of foundations’ to collaborate in ensuring Europe’s transformation to a low-carbon economy. It was established as a major philanthropic initiative to promote climate and energy policies that greatly reduce Europe’s greenhouse gas (GHG) emissions and to help Europe play an even stronger international leadership role to mitigate climate change. We aim to be the smartest place in Europe for funding climate change mitigation strategies, by identifying the opportunities for intervention – the ‘sweet spots’ where philanthropic investment can make a real difference.
